

Migel H. Tan

Valenzuela City, Metro Manila, 1440

(+63) 956 740 1232 — migellltan@gmail.com — LinkedIn — GitHub

SUMMARY

BS Information Technology student at PUP Manila with knowledge of Windows environments, Microsoft Office, and Office 365. Strong communicator with a customer-service mindset, analytical thinking skills, and a willingness to learn. Seeking an IT Service Desk internship opportunity to apply technical and problem-solving skills while gaining hands-on industry experience.

EDUCATION

Polytechnic University of the Philippines

Bachelor of Science in Information Technology

President's Lister, Freshman Year (2024–2025)

2024 – Present

Manila City Campus

Our Lady of Fatima University

Senior High School, STEM Strand

Graduated with High Honors

2022 – 2024

Valenzuela City Campus

SKILLS

- **Programming & Data:** Python (Pandas, Matplotlib, Scikit-learn), SQL (PostgreSQL), Java, C
- **Machine Learning:** Data Preprocessing, Feature Engineering, Exploratory Data Analysis, Naive Bayes, A Priori, Model Evaluation (Precision, Recall, F1-Score)
- **Visualization & Design:** Figma, Matplotlib; exposure to dashboard and data storytelling principles
- **Cloud & Tools:** AWS Cloud fundamentals, Git, GitHub, MySQL, MS Office, Google Workspace
- **Soft Skills:** Analytical Thinking, Attention to Detail, Cross-functional Collaboration, Technical Documentation

PROJECTS

Phishing URL Detection Model

2026

Machine Learning — Python — Naive Bayes — Scikit-learn

- Built a binary classification model to detect malicious URLs using the Naive Bayes algorithm
- Performed end-to-end data preprocessing and feature extraction on URL datasets
- Evaluated model performance using precision, recall, and F1-score; documented findings and methodology

Kwagee – Stellar-Integrated Digital Wallet with Auto-Budgeting

2026

Hackathon Project — Blockchain — FinTech — Data Analytics

- Co-developed a FinTech application with real-time spending categorization and automatic budget tracking
- Implemented data pipelines to capture and process user transaction data for actionable financial insights
- Presented analytical findings at a hackathon focused on decentralized finance for underserved communities

Pag-CONNECT – Digitized Government Application System

2026

Java — MySQL — Database Integration

- Built a desktop app with MySQL integration and structured schema design for persistent record management and streamlined data entry for a government-adjacent use case

PUPEase – UI/UX Redesign of Document Request System

2026

Figma — User Interface — High-Fidelity

- Conducting user research and translating findings into wireframes and prototypes using data-informed, human-centered design principles for a platform serving thousands of students

RELEVANT EXPERIENCE

AWS Cloud Club of PUP Manila

2024 – Present

Data Science and Analytics Member

- Attended workshops on data handling, cloud-based analytics, and visualization; collaborated on discussions bridging AWS infrastructure with data science workflows

DataCamp Scholar – Data & AI Track

2025 – Present

- Completed certified courses in Data Analytics, SQL (PostgreSQL), and Python; studied ML foundations including data preprocessing, feature engineering, Naive Bayes, and A Priori

ACHIEVEMENTS, SCHOLARSHIPS & ACTIVITIES

- President's Lister, Freshman Year – Polytechnic University of the Philippines 2024–2025
- Graduated with High Honors – Senior High School, Our Lady of Fatima University 2024
- DataCamp Scholar (Data & AI Track) 2025 – Present
- Dr. Pio Valenzuela Scholarship Recipient 2024 – Present
- CiscoNetConnect – Registrations Coordinator 2025 – Present
