Midterm Activity #3

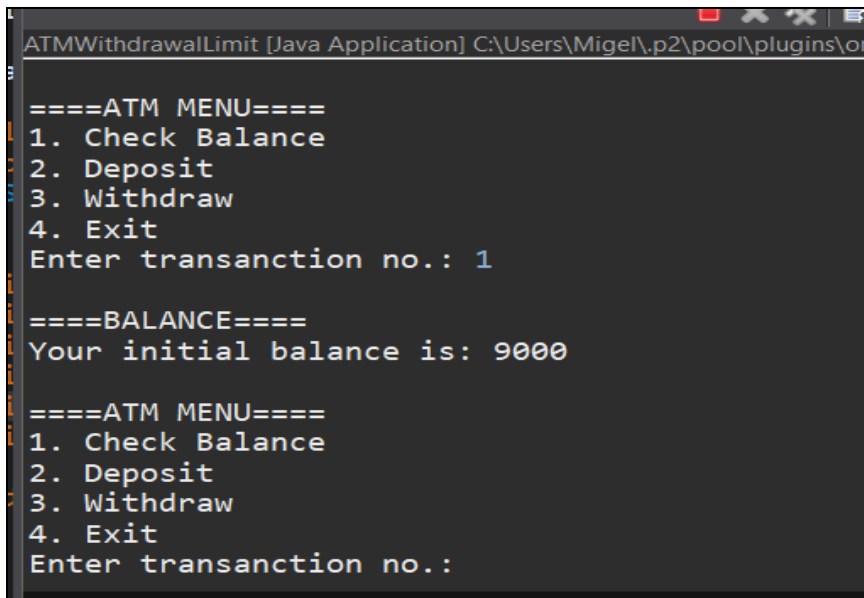

User Input:

A screenshot of the Eclipse IDE console window. The title bar shows 'ATMWithdrawalLimit [Java Application] C:\Users\Migel\p2\pool\plugins\org.eclipse.justj.openjdk.hotspot.jre.fu'. The console output displays an ATM menu with four options: 1. Check Balance, 2. Deposit, 3. Withdraw, and 4. Exit. Below the menu, the prompt 'Enter transaction no.: ' is followed by the user input '1'.

```
====ATM MENU====  
1. Check Balance  
2. Deposit  
3. Withdraw  
4. Exit  
Enter transaction no.: 1
```

Program Processing:

I. Initial Balance

A screenshot of the Eclipse IDE console window showing the program's processing. It displays the same ATM menu as the previous screenshot. After the user input '1', the program outputs '====BALANCE====' and 'Your initial balance is: 9000'. The menu is then displayed again, and the prompt 'Enter transaction no.: ' is shown without a user input yet.

```
====ATM MENU====  
1. Check Balance  
2. Deposit  
3. Withdraw  
4. Exit  
Enter transaction no.: 1  
  
====BALANCE====  
Your initial balance is: 9000  
  
====ATM MENU====  
1. Check Balance  
2. Deposit  
3. Withdraw  
4. Exit  
Enter transaction no.:
```

II. Deposit

```
ATMWithdrawalLimit [Java Application] C:\Users\
=====ATM MENU=====
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter transaction no.: 2

=====DEPOSIT=====
Enter amount to deposit:
2500
You deposited: 2500
```

```
=====DEPOSIT=====
Enter amount to deposit:
2500
You deposited: 2500

=====ATM MENU=====
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter transaction no.: 1
|

=====BALANCE=====
Your initial balance is: 11500
```

III. Withdraw

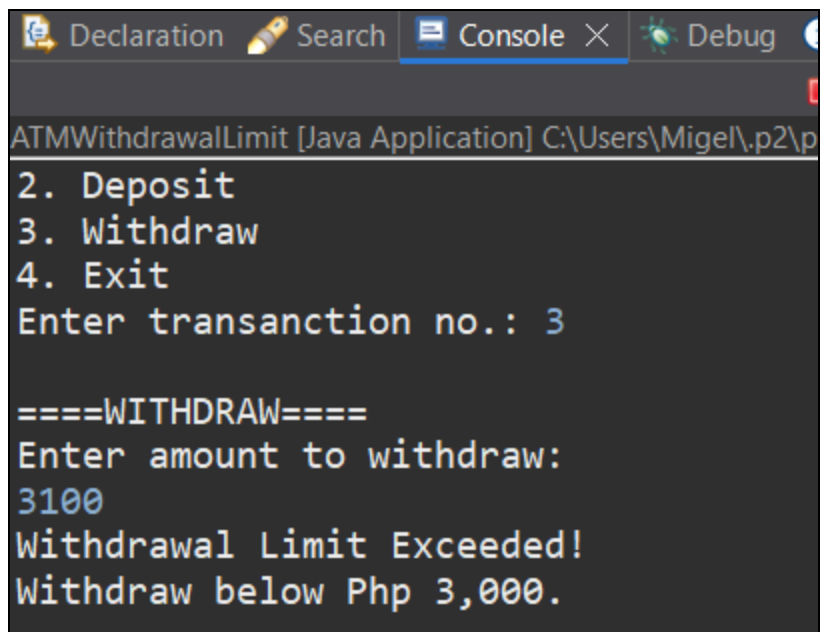

```
Declaration Search Console X Debug
ATMWithdrawalLimit [Java Application] C:\Users\Miguel\p2\p
=====ATM MENU=====
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter transaction no.: 3

=====WITHDRAW=====
Enter amount to withdraw:
1500
You withdrew: 1500
```

```
=====ATM MENU=====
1. Check Balance
2. Deposit
3. Withdraw

====WITHDRAW====
Enter amount to withdraw:
3100
Withdrawal Limit Exceeded!
Withdraw below Php 3,000.
```

IV. Exit

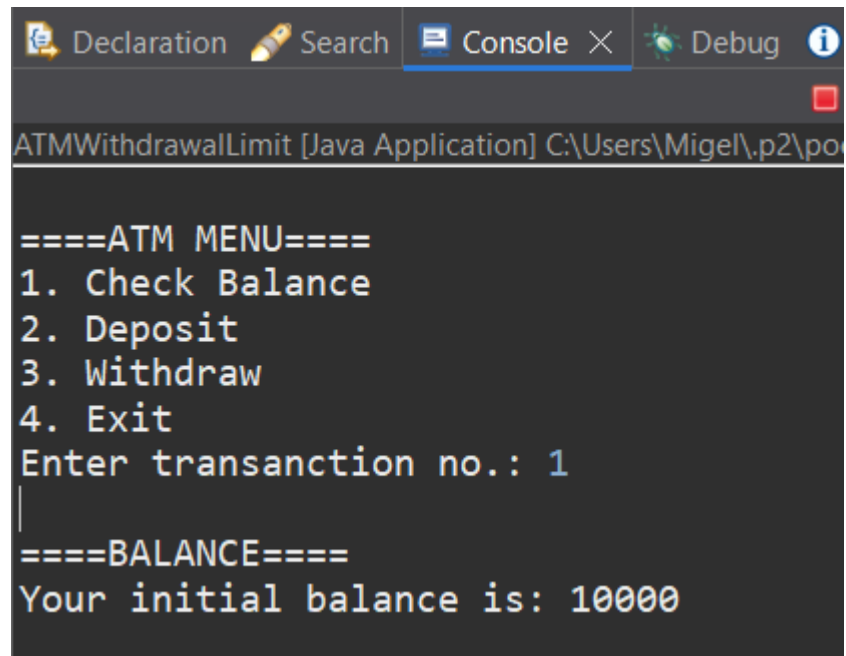

```
====ATM MENU====
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter transanction no.: 4

====Thank you!====

Exiting program...
```

Final Output/Result:

The screenshot shows an IDE console window with the following content:

```
ATMWithdrawalLimit [Java Application] C:\Users\Migel\.p2\po

====ATM MENU====
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter transanction no.: 1
|
====BALANCE====
Your initial balance is: 10000
```

The console window has tabs for Declaration, Search, Console (selected), and Debug. The title bar indicates the application is 'ATMWithdrawalLimit [Java Application]' located at 'C:\Users\Migel\.p2\po'.
